Wow!

Events Production

www.whitwam.ltd.uk/events

Whitwam is an events production company, based in Winchester. We supply advice, strategy and production of events to corporate and public sector organisations, all over the UK and abroad.

From corporate conferences, product launches and seminars, to road shows, awards ceremonies, balls and press meetings – we can be a trusted partner for your events team.

In April this year, Whitwam provided the audio visual for the Royal Society premier of a new three-part **Stephen Hawking Documentary**.

Video Suite at new premises

As well as events production, we are also here to help with all your corporate video requirements. We have a brand new video editing suite at our new premises which are just off the M3 at Winchester.

Sustainable Business Awards

The 'Sustainable Business Awards' were held on Thursday 20th May at the De Vere Grand Harbour Hotel in Southampton. Around 200 people from Hampshire and Isle of Wight companies attended to collect their awards and enjoy a celebratory dinner.

Whitwam was asked to produce the stage lighting, projection, PA and lighting to this annual event.

SUMMER UPDATE

We've been busy at Whitwam this Spring, producing and managing events, creating a series of product videos for one of our corporate customers, getting involved in local projects. We even provided sound equipment for the general election results event held in Winchester.

Our new website www.whitwam.ltd.uk/events is now up and running; we're very proud of all the great endorsements we have gathered on the 'Our Clients' pages.

If you scroll down to the bottom of any page on the website, you will see the link to our new blog. From here I shall be keeping you up to date with Whitwam latest events as well as discussing new technology and movements in the events and audio visual sectors. Please add your comments and join in any discussions of interest.

You may also have noticed that we have joined ESSA – the 'Event Supplier and Services Association'. This will support us in working with industry peers to produce 'best practice' standards of service. It will also keep us updated with latest movements within the market place, enabling us to guarantee our Clients, the very latest in production techniques and technologies.

The case studies on our website demonstrate that our Clients are delighted with our professional and competitively priced service. If you too are looking for a reliable, leading-edge, events production partner, get in touch. Or you can come and see us at the Event and Exhibiting Show at the Business Design Centre in Islington, on 15th and 16th July.

Have a great Summer!

Buz Ross Head of Events

This issue, staff profile

Simon Bobbett,
Production Manager

During his ten years with Whitwam, Simon has gained wide experience across the spectrum of audio visual skills with particular expertise in content management and on-site crew management.

Simon will design, quote and deliver the winning package for your event. Simon has recently celebrated the birth of his first child and says he now understands the true meaning of the word 'tired'!

Photography Isn't Dead

Happy Finish creates some of the world's most eye catching images and campaigns through photograph retouching.

This Spring, Happy Finish held three one-day events to raise awareness of the possibilities of using computer generated imagery in photographic production. The 'Photography isn't dead' events were designed to show anyone involved in photography and graphic design, new creative ideas and tricks of the trade.

The events were held in Shoreditch, East London at the Town Hall, 'Blossom Street Studios' and 'The Village Underground'.

Each of the three days had the same format, where live demonstrations and tutorials took place. Whitwam provided and managed projection equipment, lighting, sound and background music.

Nicola Petrides, marketing manager of Happy Finish said,

“The events were an enormous success with over 700 photographers, art directors, graphic designers and web developers attending to see the live show. Thanks to Whitwam, everything ran super efficiently and flawlessly. Whitwam delivered over and above what was expected, with an honest and realistic approach to the technical requirements of the event from the start.”

Going for Gold Awards

On the evening of 7th May, Whitwam produced the Hampshire PCT 'Going for Gold Awards' at the Guildhall in Winchester. This was the second time Whitwam was asked to produce the lighting, sound and projection for the annual event, since things ran so smoothly last year.

Around 250 Primary Care Trust staff attended the event and enjoyed the celebrations. This year, Whitwam has also been commissioned to produce two supporting videos to capture the event and promote the awards for next year.

Winchester Arts Festival

From 9th - 18th July, Whitwam will be taking part in the production of the Winchester Arts Festival. The festival celebrates music, drama, film, literature and visual arts by a multitude of distinguished artistes. Winchester has figured every year in the lists of the Ten Best Festivals.

On 10th July, Whitwam will be producing 'The Sea Woman' A musical performance devised and created with young people from Winchester, based on a Scottish folk tale.
